Miss Marguerite Robinson, of New York, to talk on Cultural Arts This Week.

With a completely reorganized faculty and a wider range of subjects offered, the Secretarial School opens its second session tomorrow morning. During the absence of Miss Josephine Frost, the director, who is detained for several days with important work, from which she could not be immediately released, Mrs. Eudora Harrison, Richardson, instructor in publicity and advertising, will have charge of the opening.

Miss Marguerite Robinson, of the Amund-Robertson School of Cultural Arts, New York, will spend Wednesday and Thursday at the school, talking in groups and privately to the students on personality building and the value in which more perfect self-expression may increase efficiency. It will be her purpose at the beginning of their business training to guide the students towards the profession for which their personalities are best adapted.

Colonel Leroy Hodges, an economist of well known attainments, now confidential secretary to the Governor, will lecture from time to time on economics in its relation particularly to city and State government. Other men and women prominent in business and educational circles have agreed to address the students upon subjects the knowledge of which will contribute to future business usefulness.

Considerable interest is being taken throughout the city in the evening courses, which are designed to supplement the equipment of business women who are desirous of holding positions of greater responsibility. A number of teachers have expressed the teaching profession at the close of this session.

## DEATHS IN VIRGINIA

**Funeral of Thomas H. Woolfolk.**—The funeral services of the late Thomas H. ## Daily Health Talks

A WORD ABOUT THE KIDNEYS

BY DOCTOR WATSON:

People are easily frightened when they think something is the matter with their lungs or heart, and well they may be, but few people understand the dangers of diseased kidneys. These organs have a duty of vital importance to perform, and if they are diseased, there is no telling how or where the symptoms may appear. The kidneys are filters, and when they are healthy they remove the poisons from the blood and purify it. When the kidneys are diseased, the poisons are spread everywhere, and one of these poisons is uric acid. The uric acid is carried all through the system and deposited in various places, in the form of urate salts—in the feet, ankles, wrists and back—often forming bags under the eyes. Sometimes the resulting trouble is called rheumatism, lumbago, sciatica and backache. Finally, come stone in the bladder, diabetes and Bright's disease.

Dr. Pierce, of Buffalo, N. Y., in recent years, discovered that a certain combination of remedies would dissolve uric acid (urate salts) in the system. He found this combination to be harmless, so that he made it up in tablets, of double strength, and called them Anuric Tablets. They dissolve uric acid in the human system as hot coffee dissolves sugar. If you have uric acid troubles, don't delay in taking Anuric Tablets, which can be secured in the drug stores. You can write Dr. Pierce, and he will tell you what to eat and how to live so that more uric acid will not form in your system. Dr. Pierce will not charge for this advice—Adv.

Master Yassour, who is the nine-year-old pupil of Ernest Bolling, has made his bow to a Richmond audience, and created a sensation by his performance. The little fellow played from memory a concerto from Bach, Schumann, Chopin, etc.—Times Dispatch, 1917.

Master Marshall Gordon played a group, showing great talent in one of the "Woman's Club" recitals. This performance was at the Woman's Club. This was the first time that the young artist had played in public. He has been playing for a long time, and his technique is very good. His recital was a success, and he was much favored by the audience. His recital was a success, and he was much favored by the audience. **Calomel Today! Sick Tomorrow!**

I Guarantee Dodson's Liver Tone

Don't take nasty, dangerous calomel when bilious, constipated, headachy. Listen to me!

Calomel makes you sick; you lose a day's work. Calomel is quicksilver and it salivates; calomel injures your liver.

If you are bilious, feel lazy, sluggish and all kinds of ailments, your bowels are constipated and your head aches or stomach is sour, just take a spoonful of harmless Dodson's Liver Tone instead of using sickening, salivating calomel. Dodson's Liver Tone is real liver medicine. You'll know it next morning, because you will wake up feeling fine, your liver will be working, your headachy and dizziness gone, your stomach will be sweet and bowels regular. You will feel like working. You'll be cheerful; full of vigor and ambition. Your druggist or dealer sells you a

bottle of Dodson's Liver Tone for a few cents under my personal guarantee that it will clean your sluggish liver better than nasty calomel; it won't make you sick and you can eat anything you want without being salivated. Your druggist guarantees that each spoonful will start your liver, clean your bowels and straighten you up by morning or you get your money back. Children gladly take Dodson's Liver Tone because it is pleasant tasting and doesn't gripe or cramp or make them sick.

I am selling millions of bottles of Dodson's Liver Tone to people who have found that this pleasant, vegetable liver medicine takes the place of dangerous calomel. Buy one bottle on my sound, reliable guarantee. Ask your druggist about me.—Adv.

State Fair Visitors Are Welcome to Make This Store Their Headquarters While They Are in Richmond.

Shall Germany Be Allowed To Go On With Murder and Destruction?

If the President of the United States was to come to you to-morrow and say, shall we end this war now you would in all seriousness say, No. But when you say no, do you realize that in order to carry on this war and bring the Kaiser and his hordes to their knees we must have money, money and then, more money?

Of course, you know that as well as we do, but what are you going to do about it? Buy Liberty Bonds to the very limit, buy them until you have to sacrifice some of your pleasures—the boys over there are sacrificing their all—life—and you, Mr. Mrs. and Miss Slacker, are sitting home here going to theatres, moving pictures and having the time of your life with the extra dollars that these boys over there are making possible for you to have.

SLACKER!—The most despicable of all terms.

Get Your Heater While You Can

The way things look now, there is going to be a serious shortage of heaters of all kinds, because the manufacturers cannot get the raw materials to make them and even if there are any later in the season, they will be higher in price than ever before, so we are earnestly advising you to buy yours at once to avoid disappointment at the last moment—at least you will save money. Right now our stocks are complete and lower in price than you will find in other stores, because we did our buying in time to take advantage of the low prices that were prevailing months ago.
